FREIGHT LOADING SHOWS DECREASE

New York, July 13.—Loading of revenue freight totaled \$74,596 cars during the week ended on July 1, a reduction of 290 from the week before, but an increase of 194,317 over the corresponding week last year, according to a report made public tonight by the car service division of the American Railway Association.

Coal, livestock, and forest products loadings registered decreases under the previous week, but loadings of grain, general freight and other products were higher. Compared by districts, increases over the preceding week were reported in the eastern central western and the southwestern districts, while the Atlantic, Potomac, Southern and North-western districts showed decreases.

Coal loadings for the week ending June 24 totaled \$6,969 cars, which is about \$1,000 cars below the weekly average of coal loadings for June and July, 1921. If the normal autumn movement of coal alone were added to the present car loadings, railroad officials point out that a total of about 297,596 cars would be the total weekly movement of all commodities. This figure would be only 31,000 cars less than the record movement in American railroad history, which occurred in the week ending October 15, 1920, and totaled 1,013,539 cars.

NORTH WOODSTOCK

Mrs. Marjorie Potter spent last Thursday in Worcester.

Mr. and Mrs. L. J. Leavitt, with Mrs. Ellen Palmer and daughter Olive, motored to Spencer Thursday.

Miss Beatrice Healey has been engaged as organist in the church here for the summer.
